

1. Error: adb.exe has stopped working continuous pop-ups in Android Studio.

Soln: you need to reset the network settings.

- 1) Run CMD prompt as administrator.
- 2) Type command "netsh winsock reset"
- 3) restart pc if needed

2. Error: 'flutter' is not recognized as an internal or external command operable program or batch file. Even after adding location of flutter 'bin' folder to environment variable.

Soln: The issue was C:\Windows\System32\ was missing from my PATH variable. So, to resolve it just follow the below steps:

1. In Search, search for and then select: System (Control Panel)
2. Click the **Advanced system settings** link.
3. Click **Environment Variables**. In the section System Variables, find the PATH environment variable and select it. Click **Edit**.
4. In the Edit System Variable window, add C:\Windows\System32 separated by a ;. Click **OK**. Close all remaining windows by clicking OK.
5. **Restart** your computer.

3. Error: Couldn't load images from assets folder.

Soln.

1. add 'assets/' in asset:
2. run 'pub get'.
3. open terminal and run 'flutter clean'
4. Hot Restart.
